Wheat Opens Lower and Afterward Moves Up

FLUCTUATIONS IN CORN NARROW Oats Quiet and Weak Early, With Very Little Trading-A Strong

Session in Provisions -

## General Quotations. CHICAGO PRODUCE MARKET.

Chicago, Nov. 3 .- [Special Telegram to the BEE. ]-The drop in prices during yesterday afternoon's short session in the wheat pit was followed by a still lower opening this morning, the first trades being at 723/@73c for December and 78%@78%c for May. The market held around these figures for a time and then, upon liberal buying of a local bear operator to cover short sales, began to move upward. Reports were received indicating a large falling off in receipts from farmers' hands in the northwest, and upon reports from the west and southwest of extremely dry weather, the process of killing off the winter wheat crop began to some extent in the pit. Under these stimulating influences December wheat advanced to 73% and May to 79% c, but the same old unloading, with nobody to take the load, began again, and the movement was downward from that point. Receipts at primary markets were very large -747,000 bushels-reported from the nine points, of which Minneapolis received 344,-000 bushels and Duluth 169,000 bushels, showing that the growth of the visible supply was not being retarded appreciably, for the present at least, whatever the falling off in farmers' deliveries might accomplish in the future. It was also thought to be a trifle early to destroy the winter wheat crop. Durearly to destroy the winter wheat crop. During all the latter part of the session prices sagged steadily and the close was only fractionally above the opening figures, December resting at 73c and May at 78% c.

Fluctuations in corn were quite narrow, but there was a fair amount of trading, with some outside orders, although the bulk of business was by local traders. The first impulse of the market was upward, influenced by the expected brisk demand for corn for shipment. This demand, however, was only fair and the near by deliveries closed be lower than they opened. December and January deliueries opened at 41½ c and May at 456/45½ c, which were exactly the closing figures of yesterday. December sold at 41½c and 41½c and closed at the last named figure bid. January followed the same course and prices, except that the highest price touched was 41% (#44% c. May fluctuated between 45% c and 45% c and 45% and closed at 45% c asked.
Oats were quiet and weak early and first

sales were at  ${}^{1}sc$  per bushel decline to recovering later and the closing was fully up to yesterday. But few trades were making and most months were not traded in and prices were little better than nominal ones.

In provisions a strong market was experi-enced. Under the lead of pork, which was worked by a couple of speculators for an ad-vance, the entire trade showed a firm front. The actual improvement in values, however, was limited, though the 1 o'clock rest all around was higher than lost wight? around was higher than last night's closing.

Afternoon Session—Wheat firm. Corn firm. Oats dull but steady. Pork for January sold early at \$12.55, but closed at \$12.5215, February closed at \$12.65 and May at \$15.00. Lard was quiet and closed at \$6.32\cong for November, \$6.30 for December and year, \$6.35 for January, \$6.42\cong for February and \$6.65 for May. Short ribs were quoted at \$6.32\cong for January and \$6.40 for February.

## CHICAGO LIVE STOCK.

CHICAGO, Nov. 3 .- | Special Telegram to the BEE. |-CATTLE-Although receipts show a material falling-off as compared with last week, the demand does not improve and prices remain as low as ever. The truth is that the dressed beef dealers have sufficient stock on hand to last some time. They are not urgent buyers, and they are willing to wait until some of the surplus is worked off. Prime and fancy native cattle are scarce. A load of the latter sold for \$5.60. A few other lots of prime natives made \$5.00@5.25, with the ordinary run of really good stock ranging between \$4.00 and \$4.80. Plenty of useful 1,300 to 1,400-lb steers are selling at \$3.50@3.80, and plain but profitable stock to the butcher as low as \$2.80@3.25. Rangers, \$2.25@3.15, and Texans \$1.85@2.75. Rangers, \$2.25@3.15, and Texans \$1.85@2.75.
Native butchers' and canning stock is going for a song. There is a fair business in the stocker and feeder line at \$1.75@2.25 for little things and \$2.50@2.99 for 1000 lb and upwards. Shipping steers, 1350 to 1500 lbs, \$3.90 @5.10; 1200 to 1350 lbs, \$3.50@4.65; 950 to 1200 lbs, \$2.70@4.20. Stockers and feeders unchanged at \$1.00@2.60; cows, bulls and mixed, \$1.00@2.40; bulk, \$1.40@1.75. Through Texas cattle unchanged; bulls and cows, \$1.30@1.85; steers, \$1.85@2.60. Western rangers, \$2.20@

Hogs-Trade was slow with a down-turn of 5@10c. With fresh arrivals and the number carried over there were 42,000 to 43,000 on sale. Then the weather is unreasonably warm and uncertain, hence houses that are without ice or short of that refrigerating factor cannot operate with safety, and as a consequence are uncertain and light buyers. The bulk of best packing sorts sold at from \$4.40 to \$4.45. Anything above that range was prime and \$4.50 was the high price to-day; common and coarse, \$4.20@4.25; light sorts, \$4.35@4.45.

## FINANCIAL.

NEW YORK, Nov. 3 .- [Special Telegram to the Brr.-Stocks-There were no striking developments in the stock market. Chicago operators led in the recent advance, but having good profits unloaded yesterday and this morning, are waiting for the market to advance so that short selling is safer, when they can jump in and make another turn The majority of operators think favorably of buying good dividend stocks on all declines. Northwestern, the Coalers and the Vanderbilts are favorites. The rate wer in the northwest is still unsettled, but strong offerts are being made to harmonize the conflicting elements, and a party of Northwestern officials left for St. Paul last night to try and adjust rates. London was steady, but did nothing of consequence in the market. The trunk line executive committee met to-day and unanimously adopted the foreign export rates. This will advance rates 100 to 200 per cent and give the roads more money for the business. The market opened quiet and steady, with a rather strong undertone. Commission people appeared to have few orders, but the market held up well, and during the morning advanced 14@114 per cent, the latter on Lackawanna, which President Sloan says earned over 1 per cent on its stock in September. Manhattan jumped 3 points, with only one sale. Russell Sage, who is commonly supposed to be acting for Jay Gould, says: "I am not doing any joint account business with Gould or anybody else. The fact is, Gould is not in the speculative markets. He is an investor, pure and simple, but an interest holder of many millions of dollars' worth of stocks. Perhaps if he and others could convince themselves that the market was doomed to destruction they might be inclined to sacrifice their securities, but as they base their calculations on solid facts and cold figures they are not to be alarmed at a few bears' manœuvres. It is certainly noteworthy that the market goes down like a piece of cork-that is, it requires much pressing, and as soon as the pressure is removed up prices rebeand, and the napetus of short selling sends quotations in many instances to higher notches. This is not a bear market now. Reactions will occur, but people who have stocks will do better not to pay any attention to traders' operations, because if they are influenced by daily quotations they may be in-

THE SPECULATIVE MARKETS. In the long run they must sell, as even the bears will discover to their cost." The market weakened toward the close as business decreased, and there appeared to be more stocks offered than buyers cared to take. All the early advance was lost on active stocks and several last sales were at a slight recession from yesterday. The changes, however, were unimportant. The total sales were 227,592 shares, against 306,148 yester-

OMAHA LIVE STOCK.

Thursday, Nov. 3. Cattle. The receipts of cattle, although still light, were considerably heavier than yesterday. The proportion of native cattle was small and there were yery few if any good corn-fed natives here. The market was very quiet at prices a shade easier than yesterday. There were a few inquiries for feeders, mostly for natives, but only a few sold.

Hogs.

Hogs.

The receipts of hogs were only moderate. The market opened slow with the buyers offering \$4.10\alpha 4.15 for the best loads. Salesmen, however, were slow to sell at those prices, and the buyers were forced to pay as high as \$4.15\alpha 4.20, and \$4.25 for one load. Later when the early buyers had filled their orders the market fell flat. The buyers remaining in the yards concluded they did not want any hogs and began to bear down the market, offering loadic less than their early morning bids. Still later, orders were received to buy hogs from Armour & were received to buy hogs from Armour & were received to buy hogs from Armour & Co., and from Kansas City and Indianapolis. When these buyers appeared in the pens that aroused the other buyers and the market closed active at prices about steady with the opening. Everything was taken.
